

STUDENT CONDUCT ON SCHOOL BUSES

An overall student bus behavior management plan should promote safety, consistency, efficiency and teamwork in implementing the MSD of Wayne Township student transportation program.

Students transported to or from school or school-related activities in buses shall be subject to the school bus conduct and safety rules as set forth in a student bus behavior management plan. Parents and students shall be informed of the rules and consequences for inappropriate behavior. The Board encourages activities that acknowledge and recognize appropriate student behavior on the bus.

The school bus driver shall be responsible for discipline on the bus. Discipline shall be handled according to the guidelines set forth in the bus driver handbook.

Drivers are not allowed to remove students from the bus at stops other than their assigned bus stop except under circumstances where there is an extreme safety hazard or a life threatening situation. Only the student's school administrator shall have the authority to deny or suspend bus riding privileges.
