

INVESTMENT

Purpose

The purpose of this investment policy (the “Policy”) is to set forth the investment objectives and parameters for the management of public funds of the MSD of Wayne Township (the “District”). This Policy is designed to safeguard funds on behalf of the District, to assure the availability of funds when needed, and provide a competitive investment return.

Scope

This Policy applies to the investment of all funds of the District. The District may consolidate fund balances to increase investment earnings and to increase efficiencies with regard to investment pricing, banking fees and administration.

General Objectives

The primary objectives, in priority order, of investment activities shall be safety, liquidity, and return:

Safety

Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital. The objective will be to minimize credit risk and interest rate risk.

a. Credit Risk - The District will minimize credit risk, which is the risk of loss due to the failure of the security issuer or backer, by limiting investments to the types of securities listed in Section VI of this Policy.

b. Interest Rate Risk - The District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities prior to maturity.

Liquidity

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands. Furthermore, since all possible cash demands cannot be anticipated, a portion of the portfolio may be placed in money market mutual funds or government investment pools which offer same day liquidity for short-term funds.

Return

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core of investments is limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

Standards of Care

Delegation of Authority

The Chief Financial Officer, hereinafter referred to as the Investment Officer, shall be responsible to oversee the day-to-day management of the District's investments. Should the District elect to select an outside investment advisor, such advisor or firm must be registered under the Investment Advisor's Act of 1940.

Prudence

The standard of prudence to be used by the Investment Officer shall be the "prudent person" standard and shall be applied in the context of managing all funds of the District. The "prudent person" standard states that, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

Ethics and Conflicts of Interest

The Investment Officer and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. The Investment Officer and employees shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio.

Authorized Financial Institutions and Broker/Dealers

Authorized Financial Institutions and Broker/Dealers

The District may pass a resolution pursuant to IC 5-13-9-5 expanding the list of approved financial institutions to include all Indiana depositories approved for the receipt of public funds according to the Indiana State Board for Depositories.

Investment Parameters

Maximum Maturities

The District's investments must have a stated final maturity of not more than two years pursuant to IC 5-13-9-5.6. Because of inherent difficulties in accurately forecasting cash flow requirements, a portion of the District's funds should be continuously invested in readily available funds such as bank transaction accounts, local government investment pools, money market funds, or overnight repurchase agreements to ensure that appropriate liquidity is maintained to meet ongoing obligations.

The District may adopt an ordinance, pursuant to IC 5-13-9-5.7, authorizing its Investment Officer to make investments having a stated final maturity that is more than two (2) years but not more than five (5) years after the date of purchase. The total investments of the District with maturities of two (2) to five (5) years outstanding at the time of purchase may not exceed twenty-five percent (25%) of its total portfolio of public funds invested, including balances in transaction accounts. Such ordinance expires on the date on which this Policy expires, which may not exceed four (4) years.

Competitive Bids

The Investment Officer or its designee shall obtain competitive bids for investment with financial institutions in accordance with IC 5-13-9-4. The Investment Officer or its designee shall obtain bids from at least two brokers or financial institutions on all purchases of investment instruments on the secondary market. Overnight sweep investment instruments shall not be subject to this section.

Reporting

During the annual meeting required by IC 5-13-7-6 of The Board of Finance of the District, the Investment Officer shall make a written report to the School Board summarizing the District's investments during the previous calendar year. The report must contain the name of each financial institution, government agency or instrumentality, or other person with whom the political subdivision invested money during the previous calendar year. The Board of Finance shall review the report and review the overall investment policy of the District.

Policy Considerations

Adoption and Expiration

This Policy shall be adopted by the District at a public meeting and shall expire four (4) years from the date of adoption in accordance with IC 5-13-9-5.7.

Exemption

Any investment currently held that does not meet the guidelines of this Policy shall be exempted from the requirements of this Policy. At maturity or liquidation, such monies shall be reinvested only as provided by this Policy.

Amendments

This Policy shall be reviewed periodically. Any changes must be approved by the Investment Officer and any other appropriate authority.

Administrative Guidelines

The Superintendent may prepare administrative guidelines to implement this Policy.
